

1. Write a program to generate the pay slip report for the employees working in a organization. An Employee salary constitutes Basic salary, House Rent Allowance (HRA) and Dearness Allowance(DA) . HRA is 12% of basic salary and DA is 18% of basic salary. Calculate the net salary as $\text{Basic} + \text{HRA} + \text{DA}$. Print the Net Salary along with the Employee ID.

Input data:

EmpID, Basic salary

Output:

Net salary

Note:

Submission format: PDF
